**GQA85UC**  
85cm under cupboard rangehood

A perfect addition for those looking for a robust and stylish solution to manage kitchen ventilation. Ideal for installations above 90cm cookers and cooktops, this model offers high performance with a heavy-duty design inspired by commercial rangehoods.

**2 x commercial-style, dishwasher-safe stainless steel baffle filters** - easy to clean and designed for long-lasting durability.

**3 Speed fan including boost** - provides flexibility for different cooking scenarios.

**Low consumption LED strip light** - bright energy efficient lighting for your cooking task.

**Oil and moisture trap** - keeps the hood clean by capturing excess oils and moisture.

**Backlit button controls** - sleek and modern design for easy operation

**2 Year warranty**  
**7 Year motor warranty**

This rangehood combines commercial-grade functionality with residential design, making it a durable and stylish choice for modern kitchens.

**GQA90SC**  
90cm slim line canopy

A refined balance between traditional and modern design, combining sleek aesthetics with advanced functionality. The slim profile makes it perfect for those seeking a sophisticated, space-efficient rangehood without compromising on power or features.

**3 x dishwasher-safe stainless steel baffle filters** - easy to clean and designed for long-lasting durability.

**3 x mesh filters** - offer the option to switch to mesh filters depending on personal preference.

**3 Speed fan including boost** - provides flexibility for different cooking scenarios.

**6 x low consumption LED lights** - which illuminate both the front and rear cooking areas.

**Backlit button controls** - intuitive and sleek to complement the rangehood's modern design.

**2 Year warranty**  
**7 Year motor warranty**

A traditional feel reimagined with clean lines and modern elements, making it a versatile choice for any contemporary kitchen.

**GQA90TBLED** 90cm square hood  
**GQA120TBLED** 120cm square hood

Designed to offer the perfect blend of advanced technology and sleek, minimalist styling. Creates a well-lit, shadow-free cooking environment, making your kitchen a more enjoyable place to prepare meals while ensuring top-tier ventilation performance.

**Perimeter extraction** - ventilates from the edges of the cooking area to efficiently capture steam and odours.

**2 x mesh filters** - hidden behind the swing-down light panel are 2 easy to remove and wash mesh filters.

**3 Speed fan including boost** - provides flexibility for different cooking scenarios.

**A full LED panel** - the central lighting feature provides even bright illumination with no shadows.

**Backlit touch controls** - a sleek, gloss facia that's easy to wipe down with intuitive touch controls.

**2 Year warranty**  
**7 Year motor warranty**

Incorporates state-of-the-art technology to remove odors without excess noise, while the full LED lighting ensures your kitchen remains well-lit and functional.
